1. The indicated allowability of claims 6, and 8-11 is withdrawn in view of the 112 claim rejections. Prosecution on the merits of this application is reopened on claims 6, and 8-11 considered unpatentable for the reasons indicated below:

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 6, and 8-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claims contains "at least two laminates are joined" was not described in the specification in such a way as to enable one skilled in the art to make the invention. Is a container formed by stacking at least two laminates to each other? The claims should be specific about a way how the two laminates are joined together to form a container to comply with the enablement requirement. As shown in figure 1 of Applicants specification, the container is made of a pair of laminated sheets bonded together at all the peripheries and each composed of a PTFE porous film and an ultra high molecular weight polyolefin porous.
